Удобство браузерной версии Gerrit оставляет желать лучшего

The screenshot shows a mobile browser interface displaying a code review for the file `Surface.java`. The code is shown with syntax highlighting and includes several annotations. The `close()` method is highlighted in pink, and the `close()` method signature is highlighted in green. The code includes comments and annotations such as `@link #getTerminationFuture()` and `@link #decrementUseCount()`. The interface also shows a diff view with `+1` and `-1` changes, and a `+10` common lines indicator. Below the code, there is a section for the license, which is partially visible and includes the text "ess required by applicable law or agreed to in writ" and "tributed under the License is distributed on an 'A".

Современный Material Design 3
с динамическими цветами компонентов на
основе цвета акцента обоев

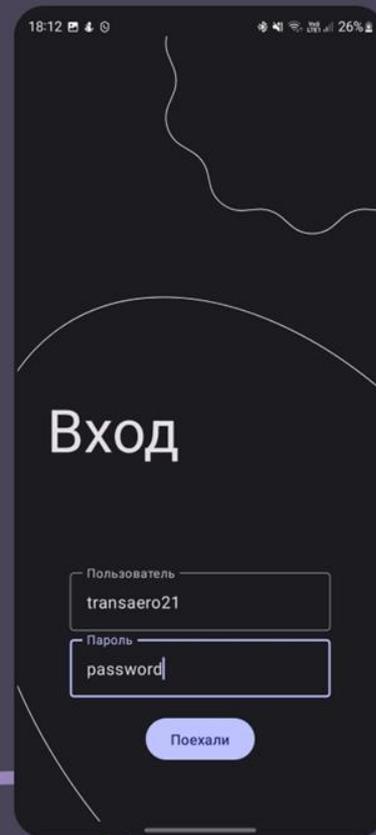

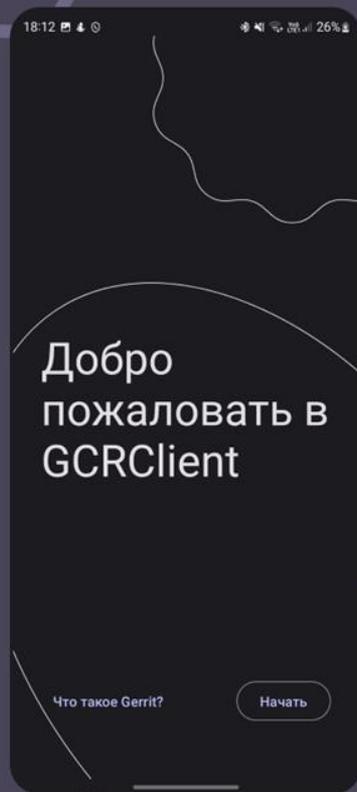

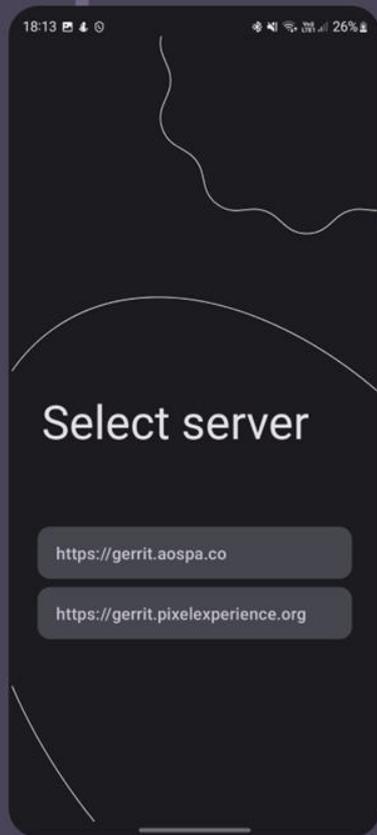

The logo for Material You is centered within a white rounded rectangle. The background of the rectangle features abstract, organic shapes in shades of light pink, peach, and yellow. The text 'Material You' is written in a bold, dark red font. The overall design is clean and modern, reflecting the Material Design 3 aesthetic.

Material You
